

Woofability

Roger and Pebbles visited the school during a holiday to Hayling Island. He explained just how much Pebbles has changed his life. Being profoundly deaf, suffering with Parkinson's and heart disease, Roger said he had been unable to leave the house. The arrival of Pebbles has changed his life completely and increased his confidence. The children could see how the money they raised has been used and what an amazing impact it has had.

So, this is how our money will help!

Moral and Social:

It is worth raising money for Woofability because we have seen how it has improved Roger's life.
