

# Music Concert

Year 3 and 5 shared their music learning by performing in a Ukulele concert. They have learnt how to hold the instrument correctly, what the different parts of the instrument are called and what they are used for. They can keep in time to a repeated rhythm and play simple melodies.

The percussion club also entertained the school with their musical rhythms.

It was fun learning the ukulele because it is a real instrument.  
Louie

Percussion club is fun because you can make lots of noise!  
Jake

## Social & Cultural

Music forms an important part of many different cultures. We also work together, keeping in time with each other to make the melodies sound their best.
