

Homework Guidance for Pupils in Years 3, 4 and 5

Dear Parents and Carers

Homework is set on a Friday and is due in on the following Thursday.

Every week we expect children to be reading regularly and practicing times tables at home, this is to be recorded on the left hand page.

All Year 3 children start on their 2, 5 and 10 times tables. As they pass these, the next times tables will be made clear on their certificates.

Additionally, there will be a maths homework challenge every other week. On the weeks that there is not a maths challenge, children should be using the squared page to practice their spellings which can be found at the front of the book.

At the front of the homework books you will find lots of ideas for spelling practice and useful websites for times table practice.

Please let us know if you have any further questions!
