## **Pupil premium strategy statement**

This statement details our school's use of pupil premium for the 2023 to 2024 academic year funding to help improve the attainment of our disadvantaged pupils. It is the third year of a 3 year plan.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

#### **School overview**

Detail	Data
School name	Mengham Junior School
Number of pupils in school	235
Proportion (%) of pupil premium eligible pupils	31.5%
Academic year/years that our current pupil premium	2021/2022 to
strategy plan covers (3 year plans are recommended)	2023/2024
Date this statement was published	October 2023
Date on which it will be reviewed	February & July 2024
Statement authorised by	Mr E Harrison
Pupil premium lead	Mr E Harrison
Governor / Trustee lead	Mr R Harman

# **Funding overview**

Detail	Amount
Pupil premium funding allocation this financial year	£113,690
Recovery premium funding allocation this financial year	£6,162
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this financial year	£119,852

#### Part A: Pupil premium strategy plan

#### Statement of intent

Our intention is for all pupils to be able to get full benefit from the learning and developmental experiences offered over the four years at Mengham Junior School and in turn, leading to good academic progress across the key stage. Our pupil premium strategy focuses on removing barriers that may prevent access to these experiences due to an individual's circumstances. Ultimately it seeks to ensure that pupils whose circumstances might give them a disadvantage in school have the support they need to succeed.

Each year the class teachers will consider all the pupils who are entitled to pupil premium funding and identify what barriers and challenges they face to getting the most out of their time at school. We have a 'menu' of support that the funding covers to tackle these barriers and challenges. The right support will be matched with the right pupils in order to accelerate their progress. These can be altered as circumstances change or from needs identified in pupil progress meetings or otherwise.

Getting pupils to successfully access high-quality teaching is our primary goal. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefit the non-disadvantaged pupils in our school. Much of the funding is used to enable this. Alongside this we also intend to provide adult time to help pupils secure gaps in their learning at other points in the school day. This could be with an adult who works as part of their year team or a school-based tutor (accessing the school led tutoring fund).

Our approach has the following 3 principles:

- Identify and tackle barriers and challenges to individual pupils.
- Maximise the time pupil spend having high quality teaching with adults who know the children well.
- Provide additional support to pupil to close gaps in their learning.

#### **Challenges**

This details the key challenges to achievement that we have identified among our disadvantaged pupils. These are not challenges that are faced by all pupils who are entitled to pupil premium funding but are common barriers to learning that can be present due to individuals circumstance. This list has been generated by conversations with teachers, parents and pupils. It is updated annually as identified needs change. The list makes up the headings of our 'Pupil Premium Menu'.

Challenge number	Detail of challenge
1	Prior reading, writing and maths attainment  Historically a great proportion of disadvantaged pupils have arrived to us from KS1 below aged related expectation. The number of pupils who were assessed as secure after the 2 national school closures reduced across all year groups. This was high amongst disadvantaged pupils in all year groups and all subjects. The gap ranges from a few percent up to 25%. Our outcomes and progress for disadvantaged pupils at the end of year 6 is significantly being those classified as non-disadvantaged.
2	Social and emotional behaviours  Pupils being able to positively interact with their peers and self-regulate their emotions is essential to them being able to learn in a classroom environment. Where pupils don't have these skills, then small incidents can disrupt large parts of their day and impact those around them.
3	Learning behaviours  To make the most of high-quality teaching and learning, pupils need a range of learning behaviours such as focus, resilience and perseverance. Where pupils haven't developed or learnt these behaviours then this becomes a barrier that will hinder academic progress.
4	Communication, vocabulary and memory  Access to the wider curriculum and more complex learning requires a larger vocabulary, good communication skills and a strong working memory. When a pupil doesn't have one or more of these then adaptions need to be made for progress to happen. Overcoming these barriers is key to long term success.
5	Attendance and punctuality  Any missed days at school has a negative impact on a child's learning. Where repeated absence and/or lateness are evident then good progress becomes increasingly unlikely.
6	Mental health, physical health and bereavement  If a pupil doesn't have good mental and physical health, then they may not be able to get the most out of the school curriculum. Other traumatic events, such as a bereavement, could also be a barrier to being able to focus in the classroom. In many cases these need supporting before a pupil can thrive in the classroom.
7.	Nutrition, clothes and equipment  In the event that a child has not had a good breakfast, lunch or dinner then they will be unable to focus on the activities of the day. If they don't have the necessary clothes and equipment then this could prevent them taking part in key lessons with their peers.
8.	Cultural Capital and experience  Pupils experiences outside of school vary greatly. Many of these experiences shape who they are as people and their understanding of the world. This has a direct impact in the classroom. Those with a narrower range of experiences has less to draw on when learning about certain parts of the curriculum.

### **Intended outcomes**

This explains the outcomes we are aiming for **by the end of our current strategy plan** and how we will measure whether they have been achieved.

Focus	Success criteria
Improved reading attainment among disadvantaged pupils.	KS2 reading outcomes in 2023/24 show the percentage of disadvantaged pupils who are at aged related expectation and great depth is greater than or equal to the equivalent at KS1.
Improved writing attainment among disadvantaged pupils.	KS2 writing outcomes in 2023/24 show the percentage of disadvantaged pupils who are at aged related expectation and great depth is greater than or equal to the equivalent at KS1.
Improved maths attainment among disadvantaged pupils.	KS2 maths outcomes in 2023/24 show the percentage of disadvantaged pupils who are at aged related expectation and great depth is greater than or equal to the equivalent at KS1.
To achieve and sustain improved attendance for all pupils, particularly our disadvantaged pupils.	Persistent absenteeism is less than or equal to national average. The same to be seen for disadvantage pupils as a sub group.
Disadvantaged pupils feel supported in the areas identified by the pupil premium tracker.	Qualitative data collected from pupil voice and surveys show that pupils feel they are being supported with their own barriers to learning.
	The percentage of disadvantaged pupils accessing clubs and residentials is in line with non-disadvantaged.

# Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) this academic year to address the challenges listed above.

#### **Class based strategies**

Budgeted cost: £33,223

Activity	Evidence that supports this approach	Challenge number(s) addressed
Additional HLTA time to provide support and target guided groups as part of normal high- quality lessons. Consistency of adult covering in the event of potential periods of isolation. HLTA attached to year group who knows children and learning journeys.	Increasing the time spent individually or in a small group with an adult increases the opportunities for immediate feedback. This complements other types of feedback but is important for rapid progress.  https://educationendowmentfoundation.org.uk/education-evidence/guidance-reports/feedback	1
Implementation of accelerated reader programme	The EEF Literacy Guidance states:  "A key issue is selecting suitable texts in order to extend pupils' reading comprehension capabilities: too easy and pupils do not need to use the strategies, too hard and they cannot understand the text."  Accelerated reader helps ensure that the individual reading books used by pupils are well pitched.  https://d2tic4wvo1iusb.cloudfront.net/eefguidance-reports/literacy-ks2/KS2_Literacy_Guidance_2017.pdf	1
Supporting pupils with their learning, social and emotional behaviours by using the following: *ELSA support *Enhanced transition *Primary Behaviour Service	1. The potential impact of metacognition and self-regulation approaches is high (+7 months additional progress), although it can be difficult to realise this impact in practice as such methods require pupils to take greater responsibility for their learning and develop their understanding of what is required to succeed.	5, 6

*MIND *Educational psychologist. *IBPs	2. The evidence indicates that explicitly teaching strategies to help plan, monitor and evaluate specific aspects of their learning can be effective.	
	3. These approaches are more effective when they are applied to challenging tasks rooted in the usual curriculum content.	
	4. Teachers can demonstrate effective use of metacognitive and self-regulatory strategies by modelling their own thought processes. For example, teachers might explain their thinking when interpreting a text or solving a mathematical task, alongside promoting and developing metacognitive talk related to lesson objectives.	
	5. Professional development can be used to develop a mental model of metacognition and self-regulation, alongside an understanding of teaching metacognitive strategies.	
	https://educationendowmentfoundation.org.uk/ education-evidence/teaching-learning- toolkit/metacognition-and-self-regulation	

# **Targeted academic support**

Budgeted cost: £20,891

Activity	Evidence that supports this approach	Challenge number(s) addressed
Targeted 'catch up' sessions for reading,	Evidence consistently shows the positive impact that targeted academic	1
writing and maths.  Employment of a school-based tutor to provided target	support can have, including on those who are not making good progress across the spectrum of achievement. Considering how classroom	1
support for pupils with gaps in their learning.	teachers and teaching assistants can provide targeted academic support,	
Targeted interventions for:	including how to link structured one-to-one or small group intervention to	4, 1

*Speech and language.	classroom teaching, is likely to be a key component of an effective Pupil	
*Phonics.	Premium strategy.	
*Pre-teaching of key vocabulary.	https://educationendowmentfoundation.org.uk/public/files/Publications/Pupil_Premium_Guidance	
*Over learning strategies.	_iPDF.pdf	
Purchase of new phonics package and resources.	Systematic phonics approaches explicitly teach pupils a comprehensive set of lettersound relationships for reading and sound-letter relationships for spelling.	4

## Wider strategies

Budgeted cost: £69,995

Activity	Evidence that supports this approach	Challenge number(s) addressed
HSLW to monitor and support families where	The DFE states the following advice regarding communication and relationships in securing good attendance:	2
attendance and punctuality are a problem.  Morning minibus	Build respectful relationships with staff, pupils, families and other stakeholders in order to secure their trust and engagement. Make sure there is a welcoming and positive culture across the school.	
pickups for specific criteria.	<ol> <li>Communicate openly and honestly with staff, pupils and families about their expectations of school life and performance so that they understand what to expect and what is expected of them.</li> </ol>	
	3. Liaise with other agencies working with pupils and their families to support attendance, for example, where a young person has a social worker or is otherwise vulnerable.	
	https://www.gov.uk/government/publications/school- attendance/framework-for-securing-full-attendance- actions-for-schools-and-local-authorities	
Funded breakfast	The DFE evaluation state:	3
club. HSLW liaise with food banks/charities. Subsidised uniform.	Breakfast clubs were popular with schools, pupils and parents. Schools reported perceived impacts in terms of reducing hunger, improved concentration and behaviour and saw breakfast clubs as helping pupils to develop social skills. No impacts were perceived on overall school attendance or punctuality, but schools did perceive improvements in punctuality for some pupils.	

Washing and distribution of free second-hand uniform. All required stationery provided.	Overall the school staff interviewed were very supportive of breakfast clubs and wanted to continue to run one. https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/603946/Evaluation_of_Breakfast_ClubsFinal_Report.pdf	
Providing free after school clubs (or only charging cost of ingredients). Support towards trips and residentials where finances are a barrier.	The Nuffield foundation research into the value of afterschool clubs for disadvantaged children states:  Teachers, parents and children identified a range of positive outcomes from participation in after school clubs, including increases in confidence, selfesteem and fitness, as well as providing opportunities for new experiences, socialising and enjoyment.  https://www.nuffieldfoundation.org/sites/default/files/files/resbr3-final.pdf	7
Facilitating the following support: *Trick box strategies *MHST *MIND *SDAs *Counselling (HYA, Include) *Young carers *Training for staff in attachment/trauma *Additional catch up swimming for non-swimmers. *Target clubs.	There is a great deal of evidence which suggests that non-cognitive skills are as important as cognitive skills in determining academic results, and that children from poorer backgrounds tend to have weaker non-cognitive skills than their better-off peers. A recent meta-analysis suggested that programmes aimed at promoting pupils' resilience and wellbeing could have a significant impact on academic achievement. This project is therefore a promising solution to what appears to be a major problem for disadvantaged pupils.  https://educationendowmentfoundation.org.uk/projects-and-evaluation/projects/developing-healthy-minds-in-teenagers	∞

Total budgeted cost: £ 124,168

# Part B: Review of outcomes in the previous academic year

#### **Pupil premium strategy outcomes**

This details the impact that our pupil premium activity had on pupils in the 2022 to 2023 academic year.

Priority 1 Ensure the gaps in learning created by time off school due to the pandemic are closing for disadvantaged pupils.

2022-2023 ARE Years 3-5	Reading	Writing	Maths
All children	68%	58%	61%
Pupil premium recipients	53%	43%	51%
Non pupil premium recipients	77%	66%	67%
KS1	Y3: 53%	Y3: 42%	Y3: 42%
(For current PP)	Y4: 38%	Y4: 29%	Y4: 52%
	Y5: 78%	Y5: 70%	Y5: 70%
	Combined: 57%	Combined: 48%	Combined: 56%
Y5 Pupil premium recipients post covid - Summer 2021	47%	53%	53%
(when in Y3)			

Pupil premium data for KS1 is skewed by year 5 only having the end of their KS1 disrupted by covid. The judgements were best fit, based on the uninterrupted time. Post covid (end of year 3) the percentage of pupils who were at ARE was broadly in line with the KS1 results of year 3 and year 4. From this point there has been some accelerated progress. However, there is still a gap of approximately 20% between ARE for pupil premium and non pupil premium recipients.

2022-2023 EXS Years 6 (SATs)	Reading	Writing	Maths
All children	75%	68%	66%
Pupil premium recipients	69%	56%	75%
Non pupil premium recipients	78%	73%	63%
(For current PP)	75%	62%	75%
Y6 Pupil premium recipients post covid - Summer 2021	64%	50%	62%
(when in Y4)			

From the post pandemic data drops, 1 pupil accelerated enough to achieve expected standard in reading and the same in writing. 2 accelerated enough to achieve expected standard in maths. There was a small gap between pupil premium and non pupil premium in reading (given sample size). Writing this was larger. In maths a greater proportion of the pupil premium recipient achieved expected standard than non-pupil premium recipients.

# Priority 2 Ensure disadvantaged pupils understanding is systematically checked, misconceptions are identified accurately and clear, direct feedback provided.

Additional adult time allocated to support this was as follows:

Member of staff	Approximate percentage of their time available to support with this as an additional adult.
HLTA 1	Year 4 – (40% Y4 and 20% Y3)
HLTA 2	60% - (50% Y6 and 10% Y5)
TA class support time	125% (across multiple TAs – all year groups, greater weighting in Y3 and Y5)

How it was used and its effectiveness was discussed at an individual level during pupil progress meetings.

Priority 3 Provide support to ensure disadvantaged pupils maintain good attendance and punctuality.

2022-2023	Attendance
Pupil Premium:	93.4%
Whole school:	95.3
National primary:	94%

For 2022-2023, Pupil premium attendance is almost in line with national levels, however was 2% below the whole school level. As with the out aim for the whole school attendance levels, we are aiming for pupil premium to be at 96% which is the prepandemic national levels (all pupils).

# Priority 4 Fund provision that helps to reduce gaps in social and emotional development that may exist due to disadvantaged circumstances (PP Menu).

The pupil premium menu covers a range of actions and provision that can be used to support pupils. Sometimes this could be a small thing on a specific day, whist others it could be support that runs all year. The amount of support and its impact is hard to put quantitative data on. For most of these actions, either the HSLW or ELSA play some part in running or organising what is put in place. Below is the percentage of PP pupils who they worked with.

2022-2023	Percentage PP who received support
HSLW	57/78 73%
ELSA	53/78 68%

#### **Externally provided programmes**

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England

No new programmes purchased in the last academic year (that are specific for our pupil premium strategy).

## **Further information (optional)**

We use a pupil premium menu (a strategy also used by our main feeder infant school) to collate a range of strategies that can be used for different individuals needs. The menu is not designed to be used by parents to request specific support, instead it is for members of staff to match the action based on the difficulty presented. Many of these actions will be put in place based on what we already know about the pupils. During the first half term teachers will identify all needs of disadvantaged pupils so that we can check to see the menu is being appropriately applied.
