### Evaluating

- Compare ideas, methods and approaches in their own and others' work and say what they think and feel about them

- Question and make thoughtful observations about starting points and select ideas to use in their work.
- Adapt their work according to their views and describe how they might develop it further

- Discuss why the work was made, as well as how.
- Share response to the artwork.
- Ask questions about process, technique, idea or outcome.

- Provide a reasoned evaluation of their own work which considers starting points, intentions and contexts
- Regularly analyze and reflect upon progress
